ENERGY

# Cowdrys Bakery, Ferndown

Most commercial buildings are ideal for solar PV: with large roofs, 3 phase electricity supplies and daytime usage of electricity. Commercial buildings give their owners and occupiers an unbeatable opportunity to benefit from solar PV.

For owner occupiers the benefits are compelling, but even on leased buildings it is easy to install systems that will benefit both landlord and occupier.

## KEY FACTS

INSTALLED  
**JULY 2012**

SIZE  
**50 KWP**

PANELS USED
