Lord William's School LED Lighting Solution

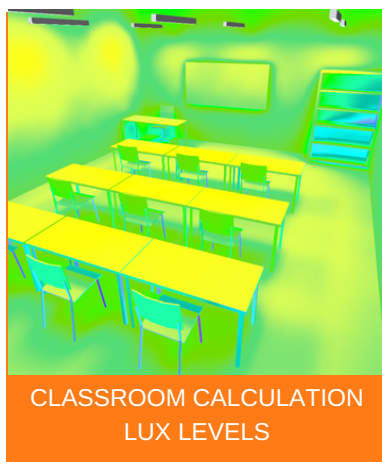

About the project

Lord Williams School were looking to improve and enhance studying conditions by replacing their existing lighting with the latest LED technology from Philips.

Solution

Our in-house design team, produced a 3D simulation model to calculate a better lighting level throughout the whole school.

The LED installation consisted of LEDs Skypack, Radia LEDs from JCC and Coreline Panel luminaries from Philips. Overall this will reduce their electrical energy by over 38%.

LED LIGHTING

Coreline Panel

LED Skypack

ANNUAL USAGE
62,717 KWh

EXPECTED ANNUAL USAGE
38,586 KWh

ANNUAL SAVINGS
£2,895.8

Enhance
conditions

Save you **£1000s**
every year

Protect against
rising fuel costs

In a market often associated with pushy sales people and poor customer care, our attention to detail and honest approach constantly reinforces our good reputation. If you would like more information on our lighting services or would like to book a free, no-obligation survey please get in touch.
