TOMORROW'S GENERATION TODAY

Windfalls

Empower Energy was commissioned by a domestic property on Windfalls, Somerset to design and install a 8.45 KWp Solar PV system. The system consists of 26x Peimar 325 Wp solar panels and a 1 x SolarEdge SOL-80 inverter. The SolarEdge inverter is specifically designed to work with the SolarEdge power optimiser, they are designed to increase energy production and are equipped with an automatic shutdown option for maximum safety. This solar installation will help the property to save in electricity costs. It will also reduce 4,216 kg of carbon footprint a year.
